

Name _____

Homework & Practice 7-2

Count by 1s to 120

Another Look! You can use place-value blocks to count forward by 1s.

1 hundred is equal to 10 tens.

103

104

105

106

HOME ACTIVITY Say a number between 100 and 105. Have your child count forward by 1s to 120. Repeat with other numbers.

Start at 103. Count forward to 106.

Count forward by 1s. Write the numbers.

103

110

Write the numbers to solve each problem.

3. Start at 118. Count forward. What are the next 2 numbers you will say?

_____ and _____

4. Start at 111. Count forward. What are the next 2 numbers you will say?

_____ and _____

5. **Look for Patterns** Sage starts counting at 99. She says, “101, 102, 103, 104...”

What number did Sage forget to say?

6. **Look for Patterns** Cairo starts counting at 107. He says, “108, 109, 110, 112...”

What number did Cairo forget to say?

7. **Higher Order Thinking** Write the missing numbers in the cards.

Try counting backward to find the number before 103.

_____	_____	103	_____	105
_____	_____	108	_____	110

8. **Assessment** Which shows the correct order for counting forward by 1s? Choose all that apply.

- 99, 101, 102, 103
- 111, 112, 113, 114
- 116, 117, 119, 120
- 108, 109, 110, 111
