Homework & Practice 2-4

Facts with 5 on a Ten-Frame

Another Look! You can write an addition fact with 5 using a ten-frame. You can also write an addition fact for 10 using a ten-frame.

$$5 + 1 = 6$$

$$6 + 4 = \underline{10}$$

HOME ACTIVITY Play a game using ten-frames drawn on a sheet of paper. Draw circles on each ten-frame. Then ask your child to write an accompanying equation using 5 or 10 below each ten-frame.

Look at the ten-frames.
Write an addition fact with 5.
Then write an addition fact for 10.

$$5 + 2 = \underline{\quad}$$
$$\underline{\quad} + \underline{\quad} = 10$$

$$5 + 4 = \underline{\quad}$$
$$\underline{\quad} + \underline{\quad} = 10$$

$$5 + 0 = \underline{\quad}$$
$$\underline{\quad} + \underline{\quad} = 10$$

MP.7 Look for Patterns Write an addition fact with 5. Then write an addition fact for 10.

4. $5 + \underline{\quad} = \underline{\quad}$

$6 + \underline{\quad} = 10$

5. $5 + \underline{\quad} = \underline{\quad}$

$9 + \underline{\quad} = 10$

6. $5 + \underline{\quad} = \underline{\quad}$

$8 + \underline{\quad} = 10$

7. **Math and Science** Rich is going rock climbing with his friends. He needs to pack 10 helmets for protection. He puts 4 helmets in the van. How many more helmets does Rich need to pack?

Draw counters to solve. Then write an equation.

$\underline{\quad} + \underline{\quad} = \underline{\quad}$ helmets

8. **Higher Order Thinking** A camp has 7 tents in all. First, the campers set up 5 tents. How many more tents did the campers set up?

Draw counters to solve. Then write an equation.

$\underline{\quad} = \underline{\quad} + \underline{\quad}$ tents

9. **Assessment** Matt's mom makes 10 pancakes in all. First, she makes 6 pancakes. Then she makes some more.

Which addition fact shows how many more pancakes Matt's mom made?

(A) $6 + 1 = 7$

(B) $6 + 4 = 10$

(C) $10 + 4 = 14$

(D) $6 + 6 = 12$
