

Homework & Practice 4-3

Continue to Make 10 to Subtract

Another Look! Counting on to make 10 can help you subtract.

$$16 - 7 = ?$$

You added 3 and then 6 more.
 $3 + 6 = 9$. You added 9 in all.
 So, $16 - 7 = 9$.

Start with 7.

Add 3 to make 10.

Then add 6 more to make 16.

HOME ACTIVITY Give your child a subtraction fact, such as $14 - 5$. Ask how many you need to add to 5 to make 10. Then ask your child how many you need to add to 10 to get to 14. Ask your child to tell you how many he or she counted on in all. Repeat with different subtraction facts.

Subtract. Count on to make 10. Show your work.

1. $17 - 8 = ?$

$8 + \underline{\quad} = 10$

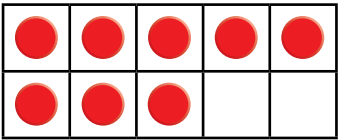

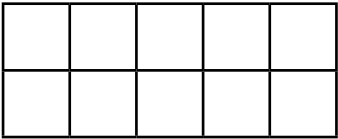

$10 + \underline{\quad} = 17$

$8 + \underline{\quad} = 17, \text{ so}$

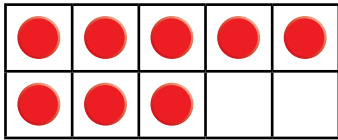

$17 - 8 = \underline{\quad}.$

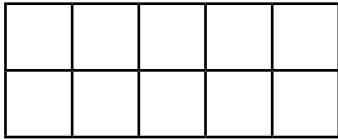

Subtract. Count on to make 10. Show your work.

2.  $8 + \underline{\quad} = 10$

 $10 + \underline{\quad} = 13$

$8 + \underline{\quad} = 13$, so $13 - 8 = \underline{\quad}$.

3.  $8 + \underline{\quad} = 10$

 $10 + \underline{\quad} = 15$

$8 + \underline{\quad} = 15$, so $15 - 8 = \underline{\quad}$.

4. **Higher Order Thinking** Andrew makes 11 saves in 2 soccer games. He made 8 saves in the first game. How many saves did Andrew make in the second game?

Make 10 to solve. Show your work.

$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$

Andrew made $\underline{\quad}$ saves.

5. **Assessment** Dori writes 5 pages. She has to write 11 pages in all. How many pages does Dori have left to write?

Which equations show how to make 10 to solve the problem?

- (A) $5 + 5 = 10$, $10 + 2 = 12$
- (B) $11 + 5 = 16$
- (C) $5 + 5 = 10$, $10 + 1 = 11$
- (D) $10 + 5 = 15$
